Emilie lives in a retirement home. When her son, her sole support, passes away, the elderly lady suddenly realizes the cruelty and nonsense of the world. She decides to take revenge on all the unkind people she has met in her life. She enlists in her extravagant quest a 20-year-younger cleaning lady, often exploited and humiliated, who also has a few scores to settle. Exhilarated by freedom and courage, the two women lead, in their unique way, this quest for vengeance and rebellion, despite the police and Emilie's in-laws on their trail.

In post-troubles Belfast, the riotous rap trio KNEECAP emerges, setting the stage for the Irish language's resurgence against the establishment. Self-proclaimed 'low life scum' Liam Óg and Naoise, along with school teacher JJ, become a political symbol and the defiant voice of Ireland's restless youth.
As they struggle to make their mark on the world, and family and relationship pressures threaten to pull the plug on their dreams, the trio weave a narrative that transcends music. A true-life fable about man's intrinsic urge for identity, the allure of drugs and a passion for life, KNEECAP is a thrilling ride pulsating with hip-hop beats.

In 1970s Australia, Grace's life is troubled by misfortune and loss. After their mother dies during pregnancy, she and her twin brother, Gilbert, are raised by their paraplegic-alcoholic former juggler father, Percy. Despite a life filled with love, tragedy strikes anew when Percy passes away in his sleep. The siblings are forcibly separated and thrust into separate homes. Gilbert finds himself in the care of a cruel evangelical family, while Grace, grappling with intense loneliness, gradually withdraws into her shell, much like the snails she adopts. As the years pass, and despite new disappointments and sorrows, a glimmer of hope emerges when she strikes up an enduring friendship with an elderly eccentric woman called Pinky.

In 1975 is held the trial of Pierre Goldman, a fiery and controversial figure of revolutionary left-wing activism. Guilty of numerous charges, yet he proclaims his innocence in a double murder accusation. Twenty years before the OJ Simpson case, the Goldman trial reflects the political, ideological and racial tensions that marked the 1970s in France and Europe. Then considered to be the trial of the century, it divided an entire country and widened the gap between the conservative right and left-wing intellectuals.

Antonina Miliukova is a beautiful and bright young woman, born in the aristocracy of 19th century Russia. She could have anything she'd want, and yet her only obsession is to marry Pyotr Tchaikovsky, with whom she falls in love from the very moment she hears his music. The only reason the composer will finally accept this union is to put an end to rumors about him. Feeling no love, and blaming her for his misfortunes and breakdowns, Tchaïkovsky's attempts to get rid of his wife are brutal. Consumed by her feelings for him, Antonina decides to endure and do whatever it takes to stay with him. Humiliated, disgraced and discarded, she is slowly driven to madness.

GREMLINS MEET HOME ALONE MEETS NATIONAL LAMPOON'S CHRISTMAS VACATIONS

The life dream of the Nordheims comes true: going back to their roots, and moving to their old family farm in the Norwegian Mountains.
Unfortunately, they are sharing this dream with one of the trickier mythical creatures in Nordic folklore: the Barn Elf.
This gnome-like Santa will turn the family's life into hell and torments. To survive them the rules are simple: no bright lights, no loud sounds, and most important of all - always put out a bowl of porridge on Christmas Eve.
